Thank you for purchasing EuroMini Fenders.

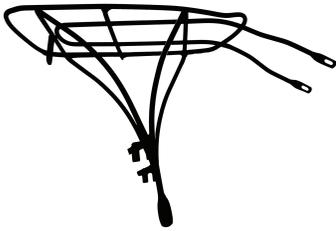

Your fenders are specifically designed to seamlessly integrate onto your EuroMini Bike while still being able to fully fold and unfold your bike. Please read and follow all instructions in this manual. Failure to do so could result in injury or death.

If you are unsure of part of the installation, please consult a qualified bicycle technician or your local bike shop.

If you have any questions regarding the installation of the fenders, please email us at [info@euromini.bike](mailto:info@euromini.bike).

For the most up to date Installation instructions go to <https://www.euromini.bike/support>

Mounting Instructions: Rear Cargo Rack

1. Before we you begin, you may want to bend the seat stay mounts to match the angle of the seat stay.

Note: Profile of seat stay matches seat stay.

2. Take one screw and one washer and assemble them together. Take the assembled screw/washer and screw in the lower leg of the rack to the upper hole of the rear dropout. (the lower hole is for the optional fender set, sold separatley.)

3. Repeat on the other side of the bike.

4. Using another assembled screw/washer, screw in the seat stay mount. You cand slightly adjust the level of the rack at this point.

5. Repeat on the otherside.

Your rear rack is now asmebled and ready for use!.

Warnings

- Failure to follow installation instructions or improper use of the racks can result in loss of control, personal injury or death.
- This rear rack is rated for 55lb loads MAX.
- Check hardware before each ride to ensure your rack is properly installed, secure and in good working condition.
- Maximum bike load is 240lb. This includes cargo and rider weight. Do not exceed.
- If your are unsure of any part of this installation process, please consult a certified bicycle technician or local bike shop.
